If you are wearing too many hats, we can help without adding another salary to your budget.

Achievements

It is imperative in today's environment that we create partnerships with those businesses of high integrity and a moral approach to "Responsible Business" and "Sustainability".

Our team has partnered with Leaders in the Sustainability arena that spearheaded the "Gateway to a Greener LA" initiative for the Gateway business district. This was a uniquely collaborative effort between local Transportation, College and the Gateway to LA business's to reduce their carbon footprint and achieve measurable green outcomes. The project yielded consolidated shuttle service to and from LAX, local office buildings, parking providers and several Hotels to achieve greener operational practices; and become more responsible business leader.

Most notable achievement was the certification of 5 Hotels for the sustainable practices. This community is recognized as one of the top 5 business communities for their achievements. Our team leaders were instrumental in facilitating these efforts through the alignment of resources and with end users to drive the results necessary to achieve the goal.

Our Goal...

We assist businesses who need support in growing their revenue streams, while managing their expense structure, without adding cost. In simpler terms called a "Yield and Return" approach to drive more profit into your business.

It is APS's unique ability to take an entrepreneurial approach to expand and align opportunities for many small to medium size businesses. APS accomplishes this by deploying their practical, no-nonsense application of the out-of-the-ordinary, outside-the-box thinking team. APS's highly motivated team of professional career strategists who are well-versed, knowledgeable and experienced in specialized fields within the hospitality, transportation, environment, foodservice, contract management, travel & tourism industries.

At APS, we leverage our knowledge and relationships to secure a core group of preferred service providers. Our role is to provide you with industry experts that have proven track records that deliver quality products with value-adds time and time again. In today's business environment we need to take a more strategic approach to align resources with industries that have the greatest growth potential.

Why?...

We realized many businesses whether they are large or small have great products but do not have the human resource capital to grow their business. Many businesses have projects that get absorbed by their internal staff when they really need a liaison with a depth of experience to assist with process selection, negotiations, and project management to make sure they get the results they need.

Project Based or Monthly Service Agreements

Services...

If you are wearing too many hats, we can help without adding another salary to your budget.

Audit, Feasibility & Assessment Services - Project Management, Feasibility Studies, Audit Preparation Review, Fiscal Assessments, Interim Controller Projects, Standards Compliance, Accounting SOP, Payroll Best Practices, Systems Development, Bankruptcy Strategies, System Upgrades, Labor & Cost Controls.

Transportation - APS can help to streamline transportation needs in communities and business's by assessing needs and creating co-partnerships to achieve a more sustainable approach to align the movement of people to desired destinations. These alignments can start with a vision to unify transportation by utilizing grant funds that support a more consistent delivery of the movement of people.

Our team can suggest ways to reduce operating and capital cost, and improve efficiency by conducting an operational analysis of existing routes and or suggesting new routes and provider alternatives. This will positively enhance the quality of life for those individuals who need to move more freely through a community to increase opportunities in a more environmentally conscious way.

Recruitment - APS assists in filling your hiring pipeline to build a qualified pool of candidates for faster fill times of open positions.

Project Based or Monthly Service Agreements

Regardless of your needs, we are committed to deliver objective, informed guidance, and actionable plans for enhancing your overall goals.
